Fall Issue of NISS Parameters

The Fall 2010 issue of **NISS Parameters** is out, and available on our [website](#). In it you can read the final installment in our brief history of NISS, about our two new postdocs and one former postdoc, about NISS' role in the US recognition of World Statistics Day, and about this issue's featured affiliate: GlaxoSmithKline.

The NISS Fund

NISS Parameters also contains a message from me about the NISS Fund, which was created by the Board of Trustees to help NISS generate the resources we need to invest in the future of the statistics community. We welcome contributions in any amount from all friends of NISS. Just [click here](#) to make a contribution. All deductions are tax-deductible, and we do take credit cards! But first, do read the message in **Parameters** to understand why you should be part of this exciting initiative.
